to mnnitcomputer., it-2011-15-mnn., mnnit-mca-2012, mnnitmca2year, cs11-15, cse10to14 ▾

Team Registration Update.

Team Registration on HackerRank (needs to be done by only one member of the team):

1. Logon to HackerRank. (www.hackerrank.com)
2. Click on the button (with your username on it) on the top right and click on Settings.
3. Click on the teams tab and create a new team.
4. Enter your team name and choose the contest as Asian Programming Contest 2014 and click on save button.
5. Now click on members and add the other team members to the team by providing their HackerRank usernames and clicking on Add member.

The added team members will receive a verification mail from HackerRank. Please confirm your acceptance on the received email.

During the contest a team can login from any of the team member's account and submit solutions to the problems.
